

Norfolk Southern Genesee Arch Bridge
Portageville, NY

Bergmann provided construction inspection services, construction engineering quality assurance reviews and environmental monitoring as part of the project to replace the aging trestle structure.

CSX Castleton Bridge
Castleton, NY

Bergmann completed a multi-year rehabilitation evaluation and design project for a 5,255-foot long railroad bridge featuring two main long-span steel trusses and 52 steel girder approach spans.

All Aboard Florida
Miami to Orland, FL

Bergmann designed 18 new or replacement bridges on the new Brightline 235-mile intercity passenger rail system that will connect Orlando to Miami, FL.

Farm Lane Road & Rail Grade Separation, East Lansing MI

Providing comprehensive planning, design & engineering services to the rail & transit industries.

Bergmann offers a full range of rail services to Class 1, short line, transit agencies, departments of transportation and other rail clients. We provide service for rail freight, intercity passenger rail, commuter rail and industrial installations. Our expertise ranges from preliminary planning and feasibility studies through final design and construction inspection.

Bergmann's rail & transit experts bring broad industry expertise to every project – they have extensive experience in the Class 1 and short line freight railroad environment. We also provide engineering and design services for commuter rail, light rail, bus transit and para-transit operations.
